

First West Foundation is proud to provide grants through the Envision Financial Endowment Fund to Heron Hospice Society of Delta

First West Foundation's Impact Grants support initiatives that strengthen community well-being, advance equity, improve food security, enhance mental health, and expand access to education, helping to build more resilient and vibrant communities.

We are honoured that Heron Hospice Society of Delta has been selected as a recipient of one of their 2026 Impact Grants. This generous support of \$20,000 will help ensure that anyone in Delta facing the challenges of grief or end-of-life has access to compassionate support when they need it most. By keeping our professional counselling and wellness programs free of charge, First West Foundation is helping remove barriers to mental health care and ensuring that no one has to navigate loss alone.

We are deeply grateful for First West Foundation's commitment to strengthening community well-being and for helping make compassionate grief support accessible to individuals and families across Delta and Tsawwassen Lands.
